INTERNATIONAL QUALITY STANDARDS

IN HANDLING PERISHABLE PRODUCTS

In DMASS Business we follow the highest international quality regulations to handle perishable products.

More than looking for clients, we aim to build partnerships, that's why our main goal is to create long term alliances delivering quality products.

The perishable produce requires an adequate refrigeration, freezing or deep-freezing process, to avoid the growth of microorganism.

This process, best known as 'cold chain', is a series of tasks and processes (storage, distribution, packaging, transport, loading and a loading) with controlled humidity and temperature.

We have partnered with experts like DICEX Integral Trade and AMS Logistics Movers to ensure the products arrive to their destinations in perfect state.
