# Stories that matter.

DMASS Business is the leading company in production and commercialization of completely organic farm produce. A 100% Mexican enterprise that has become one of the most important benchmarks of garden produce both in the Mexican and international markets.

We have more than 17 years of experience backing us up, but our clients, from North America and Europe to Middle East, are our biggest strength and guarantee our professionalism.

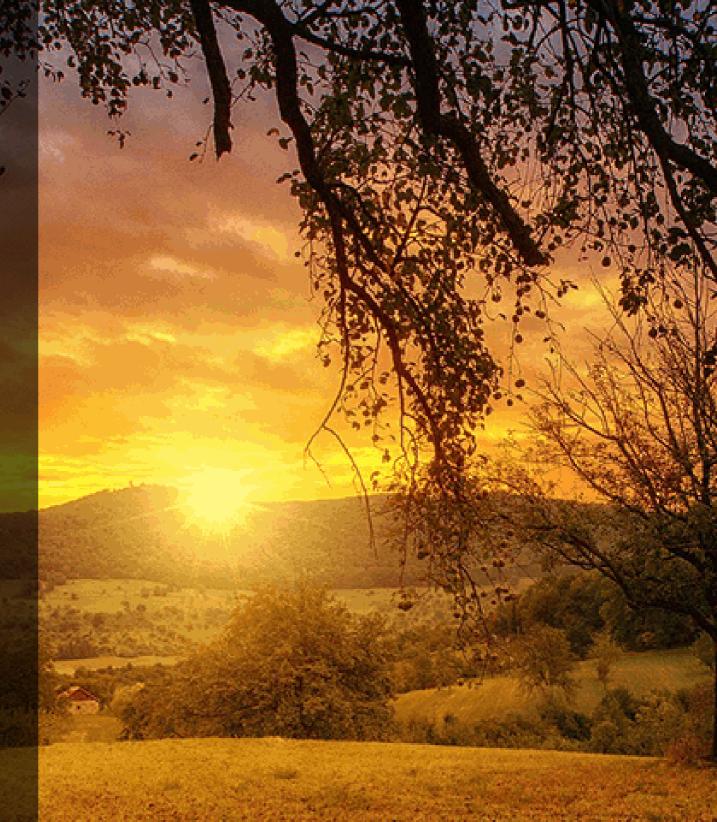

In in addition of having more than 200 acres of top quality crops, we also have more than 24 certifications as important as SAGARPA's organic product seal, and others like SENASICA, Bioagricert, Global GAP, amongst others.

We grow the best varieties of avocado, mango, banana, watermelon, papaya, pineapple, melon, lychee, lemon, jackfruit, coffee and sugar, all seasonal farm produce that are always delivered guaranteeing their freshness and top quality.

# OUR MISSION

Being a leader company in the production and commercialization of organic farm produce in national and international markets.

We aim to distinguish ourselves for the superior quality of our products and the satisfaction of our clients, building a strong long term relationship with them.

# OUR VISION

Increase our leadership in the commercialization of our farm produce, providing a quality service with continuous improvement, expanding our commercial relationships and guaranteeing the satisfaction of your clients.

DE EXCELENC

# MANGOES ATAULFO (HONEY) VARIETY

# MANGO ATAULFO APPELLATION OF ORIGIN

#### Denominación de Origen

### MANGO A t a u l f o Del Soconusco

#### **ATAULFO DEL SOCONUSCO, CHIAPAS**

The denomination was granted from August 4, 2003 to this fruit derived from Soconusco, Chiapas; On August 27 of that same year, a declaration for the protection of this designation of origin was published in the Official Gazette of the Federation.

Based on this recognition, both the quality and value of exports have been increasing not only for this mango but for other national varieties, according to data from SAGARPA in 2017.

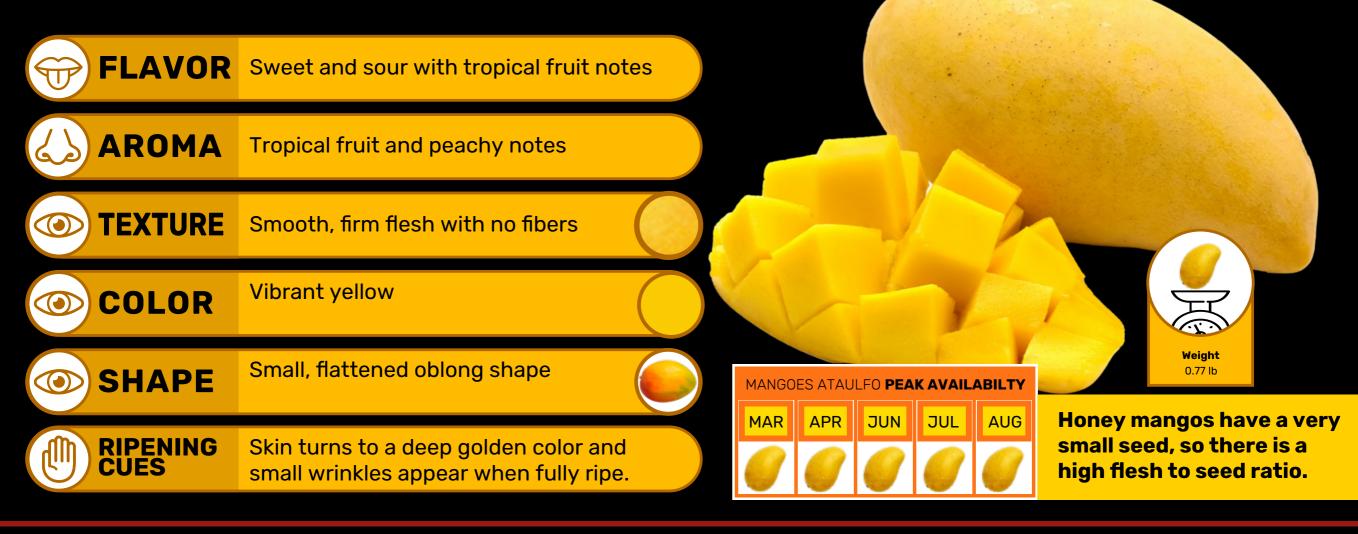

# MANGOES ATAULFO (HONEY) VARIETY

### HISTORY AND CHARACTERISTICS

This mango that bears the scientific name Mangifera Caesia Jack Ex Wall has its origins in the year 1963, when research was conducted on this type of fruit in the Soconusco region. At that time, five trees of this mango were found in a property owned by Mr. Ataulfo Morales Gordillo. These trees produced fruits of outstanding characteristics and it was then that buds and small sticks were obtained to reproduce them throughout the Soconusco region. In the 2003 declaration, mention is made of the characteristics with the obligations that must be fulfilled with the product, among which are the following: Must weigh on average 350 grams. A composition of 69% pulp, 19% peel and 8.5% bone. Pulp of firm consistency with very little fiber content, sweet flavor and low acidity; firm, yellow-colored shell as well as being resistant to post-harvest handling.

# AGRICULTURAL CERTIFICATIONS

# bioagricert

### FDA U.S. FOOD & DRUG **ADMINISTRATION**

# AGRICULTURAL CERTIFICATIONS

As the Work Plan for the Export of MELON to the United States of North America establishes, any Packing-Exporter company must register as a packer and have the according certification. For such effect a Verification Unit authorized by SAGARPA verifies every year our installations and the controls for carrying out the packing tasks according to the specifications that the Work Plan itself establishes.

#### **POLLUTION RISK REDUCTION SYSTEMS**

**DMASS BUSINESS S.A. de C.V.**, with the interest of sending harmless products to the final consumer, has implemented this system to reduce the possibility of contamination.

#### What is the Pollution Risk Reduction System (SRRC)?

It is the group of measures and procedures established voluntarily by SAGARPA to ensure that goods of agricultural, livestock, aquaculture, and fishing origin are produced and processed under hygienic conditions, and that the dangers of physical, chemical, and microbiological contamination are reduced through the application of good management practices.

#### **Food and Drug Administration**

DMASS BUSINESS S.A. de C.V., is registered with the U.S. Food and Drug Administration pursuant to the Federal Food Drug and Cosmetic Act, as amended by the Bioterrorism Act of 2002 and the FDA Food Safety Modernization Act, such registration having been verified as currently effective on the date hereof by Registrar Corp:

# INTERNATIONAL QUALITY STANDARDS

#### IN HANDLING PERISHABLE PRODUCTS

#### In DMASS Business we follow the highest international quality regulations to handle perishable products.

More than looking for clients, we aim to build partnerships, that's why our main goal is to create long term alliances delivering quality products. The perishable produce requires an adequate refrigeration, freezing or deep-freezing process, to avoid the growth of microorganism. This process, best known as 'cold chain', is a series of tasks and processes (storage, distribution, packaging, transport, loading and a loading) with controlled humidity and temperature.

We have partnered with experts like DICEX Integral Trade and AMS Logistics Movers to ensure the products arrive to their destinations in perfect state.
